SUMMARY

Data Analyst with an M.Sc. in Economics and proficiency in Excel, Python, SQL and Power BI. Possess hands-on experience in cleansing, analyzing, interpreting and visualizing large unstructured datasets with 1M+ records. Skilled in building interactive KPI dashboards, applying statistical and business analysis to identify patterns and drivers, and communicating findings clearly to stakeholders.

SKILLS

Software & Tools: Excel (Power Query, Pivot Tables, XLOOKUP, Forecasting, VBA), Python (Pandas, NumPy), SQL (Joins, CTEs, Window Functions), Power BI (DAX, Data Modeling), Statistical ML (Scikit-learn), MS Office, Google Workspace, VS Code

Data & Analytics: Data Cleaning & Transformation, Exploratory Data Analysis (EDA), Data Modeling, Data Visualization, Data Validation, KPI Dashboard Development, Business Intelligence, Business Reporting, Data Governance

Statistical: Statistics, Econometrics, Regression, Correlation, Predictive Modeling, Hypothesis Testing, Statistical Inference, A/B Testing

AI: GenAI (ChatGPT, Claude), AI Integration (GitHub Copilot), AI-assisted Data Analysis (JuliusAI), AI-assisted research (NotebookLM)

Professional: Written & Verbal Professional Communication, Team Leadership, Stakeholder Communication, Presentation Skills

EXPERIENCE

Data Analyst Intern | Primeor Solutions Aug 2026 – Sep 2026

- Assessed a 51K-record global e-commerce dataset covering 796 customers across 147 countries using Excel, Power Query, and SQL.
- Developed a 3-page Power BI dashboard covering executive KPIs such as sales, geography, products, customers, and profitability.
- Synthesized results into a business insights report with actionable recommendations, e.g. reviewing Furniture's 17% average discount.

Digital Marketing Intern & Team Lead | Ranam Business Consultants Ltd. May 2025 – Aug 2025

- Evaluated campaign and LinkedIn performance metrics to identify factors driving engagement and click-through rates, using the insights to refine content strategy and contributing to a ~25% increase in CTR and 40%+ hike in audience engagement within 8 weeks.
- Maintained campaign trackers and standardized reporting workflows while coordinating regularly with cross-functional teams to ensure timely content updates and campaign execution, improving report accuracy and increasing participation rates by 40%+.
- Recognized for consistently strong performance and leadership potential, earning ownership of department-level reporting and two promotions from intern to Team Lead to Executive within 3 months.

PROJECTS (Excel, Python, SQL, Power BI)

- FP&A Budget vs. Actual Variance Analysis & Forecast** — Built a prior-year + growth budget baseline and 3-month Linear Regression forecast for 1.8M USD in sales using Python (Scikit-learn) to investigate category-level variance and identify key performance trends, using GitHub Copilot for model iteration.
- Credit Risk Analysis** — Analyzed ~32.5K loan records to identify default-risk drivers, leveraging Claude to speed up feature exploration, quantified ~75M USD in defaulted loan exposure, finding loan-to-income ratio a stronger signal than lender-assigned risk grade.
- Marketing A/B Testing Analysis** — Conducted A/B testing on ~588K users, using ChatGPT to validate statistical assumptions, identifying a statistically significant 42.46% relative lift in ad-group conversions, and translating ad exposure into marketing insights.
- Customer RFM & Retention Analysis** — Analyzed ~1M global retail transactions, using Julius AI for rapid exploratory analysis ahead of full RFM/cohort modeling in Python, identifying 37.5% Month-1 retention and Champions contributing 89.9% of revenue.

EDUCATION

Master's Degree (M.Sc.) | University of Calcutta | India Sep 2024 – Sep 2026

Area of study: **Economics** | CGPA: **8.2/10 (82%)**

Specializations: International Economics; Money & Finance; Resource & Environmental Economics

Bachelor's Degree (B.Sc. Honours) | Serampore College, University of Calcutta | India Sep 2021 – Aug 2024

Area of study: **Economics** | CGPA: **8.4/10 (84.7%)**

Award: Usha-Ava Smriti Prize – Best Undergraduate Student in Economics (Honours), University of Calcutta, 2024

Serampore Rames Chandra Girls' High School | India

WBCHSE (12th Grade) | **87.8%** 2021

WBBSE (10th Grade) | **91.14%** 2019

ACADEMIC PROJECTS

- Globalization & Skill Formation in a Trade-Theoretic GE Framework | Group Project Supervised by Prof. Kausik Gupta**
Examined the macroeconomic effects of globalization, skill formation, and structural transformation using a multi-sector GE model incorporating FDI, AI adoption, and educational investment. Studied cross-country datasets (World Bank, ILOSTAT, WEF, PLFS) on VET enrolment, FDI-linked skilled employment, and education wage premiums to study globalization's impact on skill formation.
- Fisheries & Livelihood: Socioeconomic & Environmental Dimensions of Pallagram, Bardhaman**
Modeled and visualized primary CVM pilot survey data collected from Damodar River fishing community using a double-bounded bidding game; computed descriptive statistics, WTP distributions, and a 9-variable Pearson correlation matrix to test income, household size, and demographic factors as behavioral predictors of conservation WTP (mean Rs. 27.4/month) in Excel.
