WBCHSE (12th Grade) | **87.8%**

2021

WBBSE (10th Grade) | **91.14%**

2019

WORK EXPERIENCE

Data Analyst Intern | Primeor Solutions

Aug 2026 – Sep 2026

- Assessed a 51K-record global e-commerce dataset covering 796 customers across 147 countries using Excel, Power Query, and SQL.
- Developed a 3-page Power BI dashboard covering executive KPIs such as sales, geography, products, customers, and profitability.
- Synthesized results into a business insights report with actionable recommendations, e.g. reviewing Furniture's 17% average discount.

Digital Marketing Intern to Team Lead to Executive | Ranam Business Consultants Ltd.

May 2025 – Aug 2025

- Took on department-level reporting ownership after being trusted to interpret ambiguous data and flag inconsistencies before they reached leadership — a responsibility that led to two promotions within 3 months.
- Evaluated campaign and LinkedIn performance metrics to optimize content strategy, isolating what was driving engagement shifts, and in turn lifting click-through rate by ~25% and audience engagement by 40%+ within 8 weeks.
- Maintained campaign trackers and standardized reporting workflows while coordinating regularly with cross-functional teams to ensure timely content updates and campaign execution, improving report accuracy and increasing participation rates by 40%+.

Academic Tutor | Statistics & Economics | Self-Employed

Apr 2025 – Present

- Mentor 10+ B.Sc. students in statistics, econometrics, and data interpretation, translating complex technical concepts into clear, accessible takeaways, improving academic outcomes by 20–30%.

SKILLS

Statistical & Economic: Regression & Correlation, Time Series Forecasting, Predictive Modeling, Hypothesis Testing & Statistical Inference, Quantitative Reasoning, A/B Testing, Research & Report Writing

Software & Tools: Advanced Excel (Pivot Tables, XLOOKUP, Forecasting, Variance Analysis), SQL, Power BI, Python (Pandas, Numpy), Power Query, DAX, Microsoft Office, Google Workspace, Data Modeling

Other: Data Analysis & Management, Data Transformation and Visualization, Data Validation, AI Integration, KPI Dashboard Development, Written & Verbal Professional Communication, Team Leadership, Managing Competing Priorities

PROJECTS (Excel, Python, SQL, Power BI)

- FP&A Budget vs. Actual Variance Analysis & Forecast** — Built a prior-year + growth budget baseline and 3-month Linear Regression forecast for 1.8M USD in sales to investigate category-level variance and identify key performance trends.
- Credit Risk Analysis** — Analyzed ~32.5K loan records to identify default-risk drivers, quantified ~75M USD in defaulted loan exposure, finding loan-to-income ratio a stronger signal than lender-assigned risk grade.
- Marketing A/B Testing Analysis** — Conducted A/B testing on ~588K users, identifying a statistically significant 42.46% relative lift in ad-group conversions and translating exposure and timing patterns into actionable marketing insights.
- Customer RFM Segmentation & Retention Analysis** — Analyzed ~1M global retail transactions, applying RFM and cohort analysis to identify Champions contributing 89.9% of revenue, 82% order completion, and 37.5% Month-1 retention.

ACADEMIC PROJECTS

Globalization & Skill Formation in a Trade-Theoretic GE Framework | *Group Project Supervised by Prof. Kausik Gupta*

Examined the macroeconomic effects of globalization, skill formation, and structural transformation using a multi-sector GE model incorporating FDI, AI adoption, labor quality, and educational investment. Studied cross-country datasets (World Bank, ILOSTAT, WEF, PLFS) on VET enrolment, FDI-linked skilled employment, and education wage premiums to study globalization's impact on skill formation.

Financial Liberalization and Reforms in India | *Money & Finance*

Assessed post-1991 reform records across banking (SLR 38.5% to 25%), capital markets, and external sector (tariffs 300%+ to 10–15%) to assess impact on market efficiency, capital access, and financial stability.

Fisheries & Livelihood: Socioeconomic & Environmental Dimensions of Pallagram, Bardhaman | *Resource & Environmental Economics*

Modeled and visualized primary CVM survey data (n=14, Damodar River fishing community) collected using a double-bounded bidding game; computed descriptive statistics, WTP distributions, and a 9-variable Pearson correlation matrix to test income, household size, and demographic factors as behavioral predictors of conservation WTP (mean Rs. 27.4/month) in Excel.
